

U.S.S.N. 10/827,196

REMARKS

The applicants thank the Examiner Abdulsalam for the prudential examination and friendly suggestion.

With respect to the Examiner's rejection to claims 6 and 16, the applicants have amended these claims according to the Examiner's suggested wording.

With respect to the Examiner's objection to paragraphs [0006], [0007] and [0021] of the specification, the applicants believe these paragraphs respectively correspond to the paragraphs at line 14 of page 2, line 23 of page 2, and line 10 of page 4 of the original specification. The applicants have amended the paragraphs [0006], [0007] as above, so that the contents of these paragraphs more closely relate to claims 6 and 16. With respect to the paragraph [0021], the applicants wish to point out that this paragraph is a general statement, and it seems improper to describe details of one embodiment in such general statement. Claims 18 and 19 are supported by Fig. 9 and the paragraph beginning from line 28, page 7 of the original

U.S.S.N. 10/827,196
specification. The applicants believe this is sufficient for
the enabling requirement.

All the currently pending claims are believed allowable.
Such favorable action by the Examiner is respectfully solicited.

In the event that the present invention as claimed is not in
condition for allowance for any reason, the Examiner is
respectfully invited to call the Applicants' representative at his
Bloomfield Hills, Michigan office at (248) 540-4040 such that
necessary action may be taken to place the application in a
condition for allowance.

Respectfully submitted,
